

Omar Gabriel Salvatierra Garcia

Position: Full Stack Developer |

Professional Objective

Proactive Full Stack Developer specializing in **Python, Django, React, and JavaScript**, with strong expertise in **Linux systems** and cloud technologies (AWS, VPS). Experienced in designing and implementing scalable software solutions that integrate seamlessly with business processes. I excel in collaborative environments, bringing problem-solving, adaptability, and a commitment to high-quality code. My goal is to contribute as a **Full Stack Python Engineer**, driving innovation while continuously advancing my technical skills.

Professional Experience

• Python Developer – OFS (Audit and Fiscal Oversight) | Sep 2024 – Present

- › Developed advanced automation programs in Python to streamline public account preparation, reducing errors and processing time.
- › Engineered scalable solutions for massive XML data handling and integration.
- › Automated audit proposal generation using JSON and Selenium for web workflows.
- › Designed AI-driven models to optimize repetitive auditing tasks and accelerate decision-making.

• Full Stack Developer – Tornillera Central S.A de C.V | Apr 2023 – Sep 2024

- › Developed a sales management system with inventory control and QR code scanning for streamlined transactions.
- › Engineered scalable modules using Python, Django, React, and JavaScript on Linux VPS.
- › Implemented POS functionality within Aspel ERP for automated invoicing and real-time stock tracking.
- › Delivered high-quality code and seamless user experience through agile collaboration.

• Python Developer – Comerzialisador Plugar S.A de C.V | Jan 2018 – May 2022

- › Designed and delivered tailored software and cloud-based solutions for enterprise clients.
- › Provided technical consulting for cloud communication services adoption.
- › Developed custom sales systems and automated key business processes using Python.
- › Monitored performance and client satisfaction to drive continuous improvement.
